

MAIZE CHOPPER BIG DRUM

Corn Silage Independent from Rowi has a working width of 1,25m. and with its cutter and feeder drum it can chop two rows of maize at one pass. One of the most important specification of the machine is its foldable chassis. The chassis can be folded so that the machine stays behind of the tractor. By driving backwards the machine can open a way in the middle of the field in order to decrease the number of turns on the field and decrease the fuel consumption of tractor.

Rows	Height	Length	Width	Weight	Chute Folded Height	Pto	Power Requirement	Chopping Length	Number Of Blades	Fan Pallets	Tyres
	mm	mm	mm	kg	mm	Rpm	kW/HP	mm	pcs	pcs	-
2	3550	3800	1950	1400	2540	540 / 1000 (Optional)	64/90	4.5 / 6 / 10 / 15	12	12	175/70 R13
4 / 5	4800	2960	3100		3300	1000	200/250	4,3/8,6/12	12	12	2x(185/80 R14)
