

TRAILED FIELD SPRAYER HYDRAULIC BOOM HIGH WHEEL

- Spring system that minimizes oscillation on uneven land.
- Clean water tank independent from main tank.
- Pressure filter that increases spraying efficiency by filtering pressurized water.
- Fast filling.
- Control that provides homogeneous and precise spraying norm.
- Draining system that quickly drains the water remaining in the tank after spraying.
- Drawbar that has height adjustment and can be attached to the tractor easily.
- Spraying pump with 4 membranes having the best performance.
- Filter system that can be cleaned easily and enables fast filling.
- Durable wheels that can operate in all kinds of field conditions.
- Stop lamps that ensure safety of the machine in traffic.
- Lock and spring system that keep the arm stable.
- Durable and cleanable nozzle.
