

ROTARY TILLER WITH MECHANICAL SIDE SHIFTING

Agrional mechanical side shifting rotary tiller is ideal tillage machine for medium horsepower tractors. It is multi-purpose tillage machine for preparing seed-beds in especially low scale orchards, greenhouses, vineyards and for mixing organic materials with soil by means of milling. By the sliding the transmission mechanically it comes much closer to the depths of vine stocks and trees and shreds, mixes and swells the soil well enough.

Model	Working Width	Working Depth	Width	Length	Height	Number of Flange	Number of Horizontal Blades	Weight	Required Power
	mm	mm	mm	mm	mm	pcs	pcs	kg	hp
